RE FOOTPATH NO 31 FAIR OAK AND HORTON HEATH

The above path is scheduled to be upgraded to a bridleway as part of the development the subject of Planning Application O/13/73707 and subsequent reserved matters applications. The arrangements are set out in the Section 106 Agreement dated 25 September 2014 at Schedule 16. Paragraph 1 of that Schedule requires the Owner to have submitted to the County Council for approval before the development commences the bridleway specification. As this development is nearing completion and Paragraph 2 requires the physical works to have been completed prior to the completion of 300 dwellings and Paragraph 4 requires the Dedication to have been implemented before the completion of 310 dwellings has the specification referred to in Paragraph 1 been approved and if so can we have a copy?
